EDUCATION

KLE Society's College

BCA Degree

2025 — 2028

PROFESSIONAL SUMMARY

Detail-oriented and highly motivated Full-Stack Developer and current BCA student with a solid foundation in modern frontend frameworks, backend architecture, and database management. Proven capability in translating complex visual interfaces into clean, production-ready code using React, GSAP, and Tailwind CSS. Passionate about building high-performance web applications, scaling systems, and exploring futuristic UI/UX designs.

CORE ENGINEERING PROJECTS

Grassroots E-Sports Infrastructure Platform

Full-Stack

Full-Stack Developer

- Engineered a secure web infrastructure platform using PHP, XAMPP, and MySQL to streamline tournament operations, user logins, and administrative dashboards.
- Implemented a secure 2FA OTP security logging sequence for administrator entry panels.
- Designed an automated employee salary distribution and financial processing module integrated with dynamic QR-code uploads.

Immersive 3D Interactive Portfolio

Frontend

Frontend Developer

- Architected a high-fidelity, cinema-grade personal portfolio utilizing React, Tailwind CSS, GSAP, and React Three Fiber (R3F).
- Developed a multi-stage, scroll-driven interactive 3D scene that transitions smoothly from a hardware model to a full-screen application view.
- Engineered highly responsive, mouse-tracking radial mask reveal states and individual letter-by-letter micro-interactions to maximize user engagement.

LEADERSHIP & ECOSYSTEM EXPERIENCE

Free Fire Local Championship

Director

Esports Tournament Director & Organizer

- Managed end-to-end event infrastructure, coordinated multiround structures, and allocated point systems for competitive esports brackets.
- Directed visual brand identity assets including professional point tables, structural jersey prints, and custom-branded marketing assets.
